Hello from Canada,

I'm a member of the Montreal Linux User Group <http://www.mlug.ca/>
and provide free software to community centers on used computers.

The BIOS is replaced with a DiskOnChip from <http://www.m-sys.com/>
and flashed new boot code to load Linux <http://www.linuxbios.org/>

MicroSoft sells Pocket PC devices with Windows CE embedded today
& will continue to do so to control a market with their own code.
